We at Saynak Hydraulics are serving the mechanical industry for more than two decades and today we are competent to diversify our production range which comprises Hydraulic Presses and Cylinders, Industrial Power Packs and Hydraulic and Pneumatic Special Purpose Machines, Hydraulic Lifting Equipment.

We have also developed and supplied Hydraulic and Pneumatic Special Purpose Machines, tailor made to customers requirement such as Exothermic Sleeve Forming, Broaching, Punching, Trimming, Shearing, Pipe bending, Hydraulic Power Pack, Clinching, Runner/Gate cutting Machine, Coining, Cold Forging, Bus bar Bender, Rubber Moulding, Plastic Moulding, Swaging machine and Powder compacting Press.

Our range of manufacture also includes Material Handling Equipment such as, Scissors lifts, Stackers, Mobile lift tables etc. Our entire range is not only confirming to the most stringent of international quality standards, but also complies with the requirements of our clients. We have been able to offer these tailor-made solutions because of our sound infrastructure and our dedicated production team.

Entrenched in the industry for more than two decades, makes us prominent in our ambit of operations. Our experience, coupled up with our industrial

*Knowledge, market understanding and domain expertise has helped us gain the top slot in the market.*

□ **Our Expertise**

□ **Hydraulic Presses**

We manufacture Hydraulic Presses of various types such as 'C' Type, Closed frame type, Pillar / Tie rod type. Our range of manufacture is up to 1000 Ton capacity. We manufacture as per customers requirement. We manufacture presses for various applications, such as Punch Press, Bush fitting Press, Deep drawing Press, Shear press, Press Brake, Wheel Fitting Press, Broaching Press, Plastic molding Machine, Rubber molding machine, clinching machine, swaging machine, Pipe bending machine, Forming Machine, Coining Press, Cold & hot Forging Press and any SPM'S as per customers requirement.

✓ **Hydraulic Cylinders**

We manufacture various types of Hydraulic Cylinders:

Bore ranges from 25 mm to 600 mm.

Pressure Range 40 to 400 bar.

Stroke up to 5 meter.

Single acting, Double acting, Telescopic

Construction-Welded, Tie-rod type , Bolted

Mountings- Front Flange, Rare Flange, Face, Foot, Trunion, Eye type etc. Working Pressure up to 400 bar.

Special Cylinders such as Double Ended, Telescopic, Kicker Ram Type etc.

### ✓ Hydraulic Power Pack

*We offer a wide range of Hydraulic Power Pack Units. We undertake complete design of hydraulic systems and provide Hydraulic Power Pack Units that is designed considering reliability, flexibility of customer demand. We provide combinations of various sizes of motors, tanks, pumps, etc. While manufacturing Hydraulic Power Pack Units we use standard make accessories of Vickers, Yuken, Rexroth, Polyhydron, etc. Our Hydraulic Power Pack Units can be used in Special Purpose Machines, Presses, Material Handling Systems, Fan Drives, Dredgers and Hydrostatic Drives etc. We also provide Power Units with open and close loop proportional control for various applications*

*Bar/Axle Straightening*

*Press Trimming Press*

*Ball Plug Press*

*Shearing Machine*

*Pipe Bending Machine*

*Clinching Machine*

*Hydraulic Deep Drawing Press*

*Runner / Gate Cutting*

*Machine Bus Bar Bender*

## *Coining Press*

*Bush Fitting Press*

*Rubber Moulding Press*

*Exothermic Sleeve Forming*

*Machine Embossing Press*

*Coil Curing Machine*

*Wheel Fitting Press*

*Shutter Spring End Locking Machine*

*Washer Flattening Machine*

## *Hydraulic Material Handling Equipments*

*We manufacture various types of Tailor Made Material Handling Equipments:*

*Hydraulic Scissors Lift*

*Hydraulic Drum Lifter*

*Hydraulic Mobile Lift Table*

*Hydraulic Stackler*
